2021

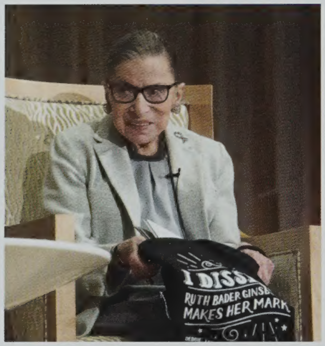
HERFF JONES BY YOUR SIDE.

WORLD YEARBOOK

2021

THE FIRST CASE of COVID-19 appeared in the U.S. in January 2020. It spread rapidly, and the World Health Organization declared it a pandemic in March. The number of deaths and those infected continued to climb into the summer, hitting a peak in July and August. The rush was on to develop a vaccine as the number of deaths continued to rise. The U.S. Department of Health and Human Services started "Operation Warp Speed" on May 15. By mid-December, people began to receive the first vaccines. To handle the monumental task of vaccinating every American, mass vaccination sites like this one at Cal State in Los Angeles popped up across the country.

SUPREME CHANGE



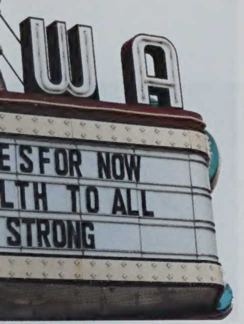
SUPREME COURT JUSTICE Ruth Bader Ginsburg died Sept. 18 at the age of 87. She continued on the court until her death, despite several bouts of cancer. In her 27 years on the nation's highest court, she championed women's rights, earning her celebrity status and the nickname "The Notorious RBG." She was the first woman to lie in state at the United States Capitol.

JUSTICE GINSBURG'S DEATH set up a battle for her seat on the Supreme Court. While Republicans wanted to replace her before the presidential election, Democrats wanted to delay the process and let the next president make the nomination. In the end, Amy Coney Barrett was appointed by a 52-48 vote in October in the Republican-led Senate, marking the first time in modern times that there were no affirming votes from the minority party.

POST-INAUGURAL FIREWORKS concluding a primetime television special simulcast and hosted by actor Tom Hanks replaced inaugural balls, and millions of Americans tuned in for speeches and live performances. The fireworks finale lit the skies above D.C. and was shared with viewers everywhere. Interest in the election was high from the start; more than 159 million Americans voted in November, many waiting in lines for hours. **JOSEPH ROBINETTE BIDEN JR.** was sworn in as the 46th President of the United States on Jan. 20. Because of the COVID pandemic, attendance at the inaugural ceremony was limited to members of Congress and a guest. **MAKING IT OFFICIAL** with a speech telecast from the South Lawn of the White House in August, President Donald Trump accepts the Republican nomination to run for a second term. While a number of other Republicans had indicated an interest or begun campaigns, the Trump/Pence ticket secured the nomination on March 17, 2020. **ON JAN. 6**, the same day Congress met to officially count and certify the Electoral College vote, President Trump held a rally near the White House. Trump and some followers continued to believe the election was stolen and could be overturned. After the speech, many marched to and stormed the Capitol, breaking in and ransacking offices. Five people died and more than 140 were injured as a result.

NATIONAL NOTES

HAPPENINGS AROUND THE COUNTRY



COPING WITH A PANDEMIC

AS THE PANDEMIC SPREAD in the spring of 2020, state and local authorities instituted restrictions to stop the spread. Restaurants, theaters, gyms, stores and schools closed. People were urged to maintain social distance of six feet from others, wash their hands frequently and wear face masks. Unemployment soared to nearly 15 percent. In March 2020, Congress passed the CARES (Coronavirus Aid, Relief and Economic Security) Act which provided direct payments of $1,200 to most Americans and an additional $600 per week in unemployment benefits.

MANY FIRSTS were marked by Kamala Harris's vice presidential election. As the first woman, the first African American and the first South Asian American to be elected to the office, Harris's oft-repeated quote, "I may be the first, but I won't be the last," symbolized the significance of her position. In 2019, Harris had entered the race for president herself. After she withdrew from the race in March 2020, she endorsed Biden and — in August — she was announced as his running mate.

GEORGE FLOYD

BLACK LIVES MATTER

UNREST IN THE STREETS

THOUGH THE BLACK LIVES MATTER movement was born in 2013, it returned to prominence in May 2020 with the death of George Floyd at the hands of Minneapolis police officers. Floyd's death sparked protests in cities across the country. **THE DEATHS** of several black people by police caused protests to grow, prompting the chant "Say their names," and protests continued into the summer. They peaked on June 6 when half a million people turned out in nearly 550 locations across the U.S.

WORLD NEWS

HAPPENINGS AROUND THE GLOBE

ROYAL **SPLIT**

PRINCE HARRY AND MEGHAN began 2020 by announcing that they would be stepping down as senior royals and work to become financially independent. In a statement, they also said they planned to divide their time between the UK and North America. The decision came as a surprise to the Royal Family, and Buckingham Palace said other royals were hurt and disappointed by the couple's statement. In February 2021, just days after the announcement they were expecting a second child, the Duke and Duchess of Sussex confirmed they would not be returning to royal service, which meant they would lose their royal patronages. Harry's honorary military appointments would be redistributed "among working members of The Royal Family."

THE COVID-19 PANDEMIC dominated world news as the virus raced around the globe from its origin in Wuhan, China, beginning late in 2019. By March 2021, it had claimed 2.5 million lives worldwide with nearly 115 million confirmed cases. The United States, Brazil and India saw the highest numbers of confirmed cases. With the quick development of vaccines, countries around the world hoped to flatten the curve before several variants could cause another surge. The introduction of vaccines along with the continued use of protective measures resulted in a drop in new cases beginning in February 2021.

Hapag-Lloyd

WILD, WILD WORLD

WILDFIRES RAVAGED the West Coast, destroying more than five million acres and marking the worst fire season in 18 years. In Australia, bush fires that began in 2019 continued to burn, scorching 46 million acres before heavy rains brought them under control in March 2020. **THE WEATHER MADE HEADLINES** with record-setting heat, cold and hurricane seasons causing extensive damage like this sinkhole in Mexico. Atlantic hurricanes caused an estimated $60-65 billion in damages in the U.S. Other weather phenomena included a cold snap in Florida that caused iguanas to fall from trees, and snow in Antarctica that turned red from algae that thrives in cold climates.

US BORDER
CLOSED TO
NON-ESS
SPEED
LIMIT
5

IN AN EFFORT to help slow the spread of the COVID-19 pandemic, countries all over the globe began closing their borders to non-citizens. The borders between the U.S. and both Canada and Mexico remained closed to all non-essential travel. Beginning in July, entry to the European Union by non-EU citizens was only permitted for countries that were deemed safe by the EU council. Each country made the decision about who was allowed to enter, and most asked travelers to quarantine for 14 days upon arrival.

FOR THE FIRST TIME EVER, the Olympic Games were postponed for a reason other than war. Because of the pandemic, the Tokyo 2020 Olympics scheduled for the summer were moved out to the summer of 2021.

SUPPLY CHAINS around the world were severely disrupted because of the pandemic. The temporary shutdown of factories in China caused disruptions in the supply of products to U.S. markets beginning in February 2020. Temporary trade restrictions and shortages of pharmaceuticals, critical medical supplies and other products highlighted the weaknesses in the supply chain. As a result, global firms were expected to diversify their supply chains in the future.

UNRELENTING MONSOONS in Pakistan killed thousands and drove millions from their homes when record and near-record rainfall began in June and continued through August. Affecting more than 20 million people and destroying a million acres of crops, the flooding lasted nearly three months, damaging power plants, roads and railways.

The Washington Post
Trump acquitted

TWO FOR TWO

THE ONLY U.S. PRESIDENT to be impeached twice, Donald Trump was acquitted both times. The first impeachment was for abuse of power and obstruction of justice for which Trump was acquitted on Feb. 5, 2020. The second acquittal on charges of inciting an insurrection, resulting from the Jan. 6 attack on the Capitol Building, came just over a year later, after Trump had left office.

Freistaat
Bayern
Republik
Österreich

TAKING LEAVE OF EU

THE UNITED KINGDOM officially exited the European Union on Jan. 31, 2020, but a year-long transition period meant no official changes would take place before Dec. 31. The two sides were able to hammer out a final trade deal just one week before the end of the year. The deal set the framework for trade between the two sides once the UK officially left the EU single market. The deal included continued zero-tariff and zero-quota access for the UK, the end to free movement and the reintroduction of border controls between the UK and EU member states. Many other aspects still remained to be negotiated over the coming months' and years, but the deal covered the fundamental trade parameters and prevented the massive disruption of a no-deal outcome, something both sides sought to avoid.

CLIMATE CRISES

WEATHER WOES BLANKET THE GLOBE

HURRICANES WREAK HAVOC

THE 2020 ATLANTIC hurricane season was the most active on record. All but one of the total 31 tropical cyclones became named storms. Thirteen of those ultimately developed into hurricanes, and six intensified into major hurricanes. One, Hurricane Iota, attained a Category 5 rating. The high number of storms required the use of Greek-lettered names for the first time since 2005. Of the 30 named storms, 12 made landfall in the U.S., breaking the record of nine set in 1916. Scientists blamed the unprecedented activity on La Niña conditions.

TOO HOT TO HANDLE

WILDFIRES FROM WASHINGTON TO CALIFORNIA killed at least 40 people and destroyed more than five million acres, beginning in the spring and burning into the fall of 2020. This marked the worst fire season in 18 years, according to scientists. Across the globe in Australia, firefighters continued to battle bush fires in Queensland and the Northern Territory. Fires in New South Wales in late 2019 and 2020 devastated the koala population, killing at least 5,000 and destroying about a quarter of their habitat.

IN WYLIE, TEXAS, outside the Dallas-Fort Worth area, a volunteer prepares sacks of food to take to a shelter. Power outages, followed by a water shortage, in addition to burst water pipes that flooded homes, drove people to seek shelter. The Fort Worth area got freezing rain followed by snow on Feb. 11, causing a 133-car pile-up that killed five people on Interstate 35W and closed the road for nearly 24 hours.

A FOOT OF SNOW in Dallas was followed by another round of snow and cold just four days later, dumping wintery precipitation from Texas to the streets of New York City. At least 60 deaths were the result of the storm. Parts of Tennessee and the Carolinas dealt with freezing rain, and tornadoes touched down in North Carolina and Georgia. **WINTER WEATHER BATTERED** the eastern half of the U.S. in February 2021. Large sections of Texas — the hardest hit state — were left without power for days in single-digit temperatures as the power grid overloaded and power plants experienced weather-based outages. At the peak of the outage, 4.3 million Texans were without power. Water pipes froze and burst, flooding houses. As the power came back on, another crisis developed: No water. Fourteen million people were under a boil order, and lines like this one formed as people waited to get bottled water. Many families had to resort to melting snow for their water. Even after power was restored to some, rolling outages continued across the state as power production remained inadequate.

from the fields

PEOPLE RACED to buy food and supplies ahead of February's storms, leaving grocery shelves like these in Plano, Texas, bare. The first storm on Feb. 11 swept northeast and hit the East Coast. A second storm a few days later dumped more snow on Texas and freezing rain through Tennessee and the Carolinas before blasting cities as far west as Chicago with additional snow.

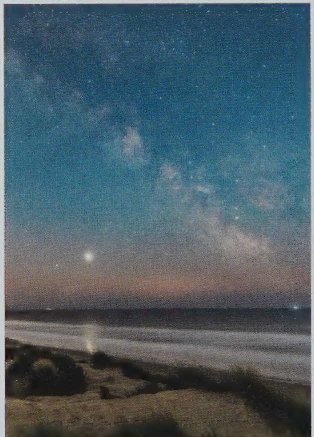
COSTLY DISASTERS

AS IF THE COVID PANDEMIC wasn't enough, 2020 set a costly disaster record. The National Oceanic and Atmospheric Administration said that 22 separate billion-dollar weather disasters impacted the U.S. in 2020. Disasters with damage estimates of at least $1 billion far surpassed the record number of 16 billion-dollar disasters occurring in both 2011 and 2017. All but two of the disasters occurred east of the Rockies with only the record-breaking wildfire season and the expansive drought affecting the western-most parts of the nation.

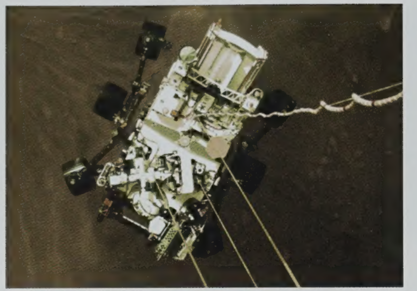
MEET ELIZABETH ANN

SCIENTISTS SUCCESSFULLY cloned an endangered black-footed ferret like the one pictured using preserved cells from a wild animal that died more than 30 years ago. This marks the first time a native endangered species has been cloned in America. Named Elizabeth Ann, she was born Dec. 10 at a Colorado conservation center. If all goes well, her grandchildren could be reintroduced into the wild as soon as 2024.

STARRY WONDER



JUPITER AND SATURN, the two largest planets in the solar system, traveled so close to each other on Dec. 21, the winter solstice, that they appeared to be glowing as one bright star, earning the nickname the "Christmas Star." Although the planets pass close to each other approximately every 20 years, they usually pass within one degree of each other. The 2020 meeting was just 0.1 degree apart. The once-in-a-lifetime event hasn't occurred since March 4, 1226, and the phenomenon won't happen again until 2080.



TOUCHDOWN!

PERSEVERANCE, NASA's robotic rover, landed on Mars on Feb. 18. The primary objective was to search for signs of ancient microbial life. This marked the first mission to collect and cache Martian rock. Perseverance took almost seven months to reach the Red Planet, culminating in "seven minutes of terror," the entry, descent and landing phase when NASA engineers could not guide or direct the rover. With the seven-minute delay in radio signals from Mars, engineers did not immediately know whether the landing was successful.

A YEAR OF (MOSTLY) SUCCESSES

SPACE X, the aerospace transportation firm founded by Elon Musk in 2002, was really visible this year. After proving the Dragon 2 crew capsule was safe and sturdy enough to transport astronauts to the International Space Station, the company did just that in June. The mission was the first launch of U.S. astronauts from U.S. soil since the shuttle mission in 2011. Less than a week later, the CREW-1 mission successfully launched from Kennedy Space Center in Florida with a full complement of four astronauts aboard. The company was not as lucky with the unmanned February Starship prototype which launched successfully but exploded on impact during an attempted landing. Still, Musk declared the Starship mission a success, noting that they collected data that will lead to future successes.

THE GREATEST MEDICAL ACHIEVEMENT of 2020 was arguably the COVID vaccine. Both Pfizer and Moderna received Emergency Use Authorization from the FDA in early December, paving the way for vaccinations to begin. The first to receive the vaccine were frontline healthcare workers. Next came those older than 75 who were considered at higher risk. Demand was so great that more and more locations opened up like this one at Greater Bethel Missionary Baptist Church in Tampa. Personnel like paramedics helped ease the burden of medical workers in giving the shots. **LONG LINES FORMED** at vaccination sites across the country, just as they had previously when waiting for tests to determine whether they were infected or not. People lined up for hours to get their shots, and states opened up sports venues and convention centers as mega-sites to handle the overwhelming response. Some people even traveled to states with looser restrictions to be vaccinated sooner.

Vacunas Disponibles Aquí
...ations apply. See pharmacy for hours

VACCINATION LOCALES expanded beyond local health departments when retailers like Walmart, CVS and Walgreens joined the effort to keep up with demand. One problem facing all locations was the need for the Pfizer vaccine to be stored at -94 degrees Fahrenheit and to be used within 24 hours of thawing. Moderna's vaccine required storage at -4 degrees Fahrenheit and could be refrigerated up to a week after thawing. **VACCINE DEVELOPMENT** took an average of 10-15 years under normal circumstances. But as the pandemic swept across the country, the U.S. Department of Health and Human Services started "Operation Warp Speed." The program made hefty funds available for development and purchased vaccine allotments ahead of production. With more than 1,000 vaccines in development, Moderna and Pfizer established themselves as leaders in the race, beginning clinical trials mid-summer. By late February, Johnson & Johnson's single-dose vaccine received FDA approval as well.

THE FIFTH GENERATION

ALL U.S. CELLULAR CARRIERS launched some form of 5G in 2020, giving them more options in terms of airwaves. The move opened up high-band, short-range airwaves and could run on any frequency, leading to three different kinds of 5G experiences: low, middle and high Only 5G apps would make a noticeable difference for users.

THE DOCTOR IS IN...THE COMPUTER

STAY-AT-HOME ORDERS – issued in most states in the spring of 2020 in response to the pandemic – prompted a reduction of in-person doctor visits, so telemedicine gained in popularity. The CDC saw a 154 percent increase from March 2019 to March 2020. The practice not only facilitated social distancing but also helped cut down on the need for PPE for medical personnel.

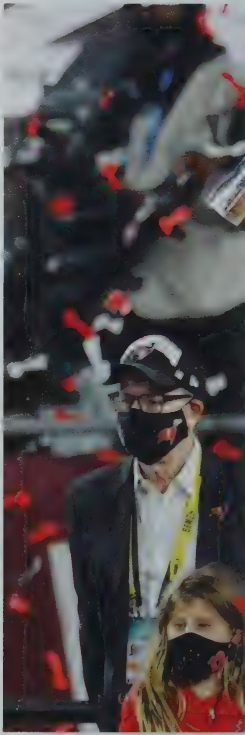
BATTLE OF TECH GIANTS

IN 2020, Apple announced that in 2021 its iPhone operating system iOS14 would require users to give permission for ad tracking, requiring users to do so app by app. Tech-giant Facebook gathered a great deal of information about its users via the app and complained that Apple would be damaging small businesses who used Facebook's app to advertise to their customers. In addition, Facebook claimed it could also face up to a 60 percent drop in income due to the change in Apple's privacy policy. In response, Apple said companies like Facebook would still be welcome to continue tracking users, so long as those users had a choice in the matter.

SPOTLIGHT ON SPORTS

ATHLETIC ACTION AFFECTED BY COVID

IN THEIR FIFTH CONSECUTIVE appearance in the College Football Playoffs National Championship, the Alabama Crimson Tide defeated the Ohio State Buckeyes, 52-24, at Hard Rock Stadium in Miami Gardens, Florida. The win gave Coach Nick Saban his seventh national championship, breaking the record for the most championships by a Division I football coach. Alabama's DeVonta Smith was awarded the Heisman Trophy, the first wide receiver in 29 years to win the award. **THE LOS ANGELES LAKERS** defeated the Miami Heat, 4-2, in the best-of-seven NBA championship. Because of the pandemic, the tournament was played in a "bubble" at Walt Disney World's ESPN Wide World of Sports Complex. Only family members and longstanding personal friends were allowed on the NBA campus. **MASTERING THE GREENS** after a delay of more than seven months, Dustin Johnson won the Masters Tournament's coveted green jacket with a record score of 268, 20-under-par and five strokes ahead of his closest competitor. Johnson, ranked as the top golfer in the world in 2020, was also voted the top PGA Tour Player of the Year for the second time in his career. **THE LOS ANGELES DODGERS** won their first championship in 32 years with a 3-1 victory over the Tampa Bay Rays in Game 6. The World Series was played at Globe Life Field in Arlington, Texas, making it the first series played at a neutral site — and the first since 1944 to be played at only one ballpark.



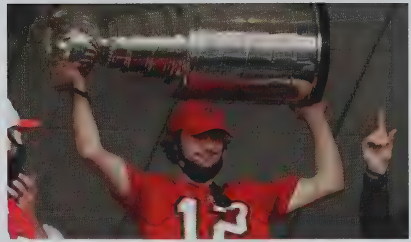
RACING RESULTS

CHASE ELLIOTT won his first NASCAR Cup Series on Nov. 8 at Phoenix Raceway. At nearly 25 years old, Elliott became the third youngest Cup Series champion. He led for a race-high 153 laps. The Cup was Elliott's second national series title. He won the NASCAR Xfinity Series as a rookie in 2014. **A SIX-HOUR RAIN DELAY** resulted in the Feb. 14 Daytona 500 being the least viewed in the race's history. When the race concluded shortly after midnight, Front Row Motorsports' Michael McDowell recorded his first career win as the eighth driver ever to get his first win at the 500. Chase Elliott came in second. The rain delay came while racers were under caution for a 16-car crash on the 14th lap.

COVID & COLLEGE SPORTS

ATHLETES TESTING POSITIVE for COVID plagued college sports seasons by postponing and cancelling games. As a precaution, top-ranked UConn women's basketball players arrived on campus in July and didn't travel home for holidays. They took classes online to limit interactions on campus. Still, exposures in opposing programs forced several cancellations. **CARDBOARD CUT-OUTS** gave the appearance of fans in near-empty arenas. Local regulations let family only attend some games. Other schools could fill a set percentage of seats, while many allowed no fans at all. Post-season plans called for all six rounds of the tournament to take place in either San Antonio (women's) or Indianapolis (men's) to reduce travel.

WHEN TAMPA BAY BUCCANEERS quarterback Tom Brady played his first Super Bowl, Kansas City Chiefs quarterback Patrick Mahomes was six years old. When they met on the Buccaneer's home field in Tampa for Super Bowl LV on Feb. 7, Brady and the Bucs came out on top, 31-9. The win gave Brady — the game's MVP — his seventh Super Bowl ring. Because of COVID, the stands were filled with only 25,000 spectators, mostly frontline workers.



NO FANS IN THE STANDS

NHL'S STANLEY CUP was played behind closed doors in Edmonton in September, due to the pandemic. When the season was suspended in March 2020, the league scheduled a special 24-game playoff series. The Tampa Bay Lightning needed only six games to beat the Dallas Stars in the best-of-seven series. This marked the first series since 1928 to be played entirely in one location.

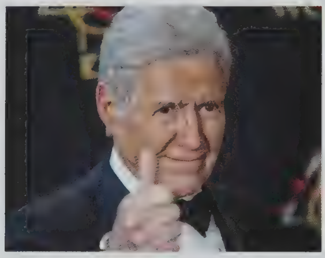
COVID SLAMS TENNIS

COVID POSTPONED the 2021 Australian Open in Melbourne, a Grand Slam tennis tournament, for three weeks, delaying it until Feb. 8-21. Naomi Osaka (above) claimed her fourth Grand Slam title, defeating Jennifer Brady in straight sets in women's singles. In men's singles, Novak Djokovic defended his title, winning his 18th Grand Slam.

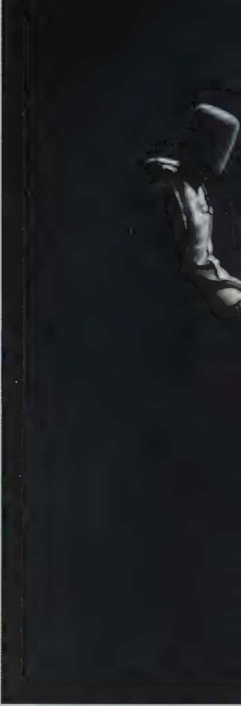
THE NAME GAME

THE BLACK LIVES MATTER movement had some far-reaching ramifications. Cities across the South questioned monuments of slave owners and NASCAR banned Confederate flags. Sports teams debated the use of Native American names. As a result, the Washington Redskins changed their name to the Washington Football Team, opting for a neutral title until they could give more thought to a new name. The Cleveland Indians have agreed to a name change following the 2021 MLB season.

SAYING GOODBYE

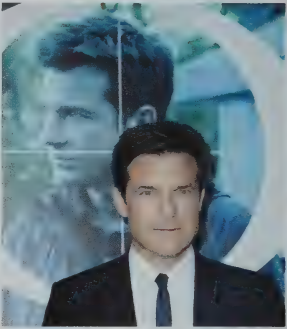


TAKEN BY SURPRISE, fans mourned actor Chadwick Boseman after his death on Aug. 28 at the age of 42. Best known for his role as Black Panther in the blockbuster movie of the same name, Boseman, pictured above with "Black Panther" creator Stan Lee, had been diagnosed with colon cancer four years before his death but chose not to reveal the diagnosis, continuing to act as he underwent surgeries and chemotherapy. His breakthrough role as Jackie Robinson opposite Harrison Ford in "42" came after years spent playing small roles on television. After his death, Marvel Studios announced his role of T'Challa would not be recast in future films. **ALEX TREBEK HOSTED** "Jeopardy" for 37 seasons before his death on Nov. 8 at the age of 80. In March 2019, Trebek revealed his pancreatic cancer diagnosis to viewers, vowing to fight and remaining upbeat as he continued to host until a week before his death. His final appearance aired Jan. 8 "Jeopardy" legend Ken Jennings took over hosting duties, the first of a series of guest hosts. In honor of his generous spirit, Trebek's grown children donated his "Jeopardy" suits, shirts and ties to homeless men and recently released prisoners.



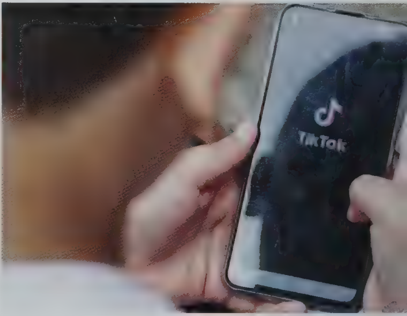
Rosebud
MOTEL

EARNING THE MOST Critics Choice Award nominations with 12, "Mank" also tallied six Golden Globe nods. Filmed in black-and-white, the movie was a biographical drama about Herman Mankiewicz who developed the screenplay for "Citizen Kane." **WHEN THE LARGELY VIRTUAL** Emmy Awards took place Sept. 23 the comedy series "Schitt's Creek" walked away with nine awards out of 19 nominations, dominating the awards. In addition to winning Outstanding Comedy Series, the show swept the lead actor and actress and supporting actor and actress comedy categories. **BINGE WATCHING** became a favorite pastime as people stayed home in the face of the pandemic. Streaming services took advantage, producing original content like Netflix's "Ozark," starring Jason Bateman, the most watched original series of 2020, according to Nielsen.



TRUMP VS TIK TOK

TIK TOK, the short-form video app, presented a security risk, according to Donald Trump, because the user data it stored on Americans could wind up in the hands of the Chinese government. ByteDance, Tik Tok's owner, denied the charge. In lieu of a ban, Trump said the company needed to be sold to a "very American company." Tik Tok remained a Chinese-owned company when Trump left office.



F

STAYING ENTERTAINED

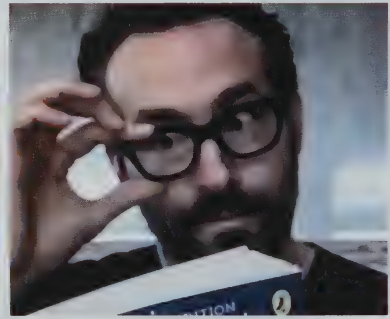
MOVIES, TELEVISION AND MORE

THE 2020 MTV Video Music Awards took place on April 30, 2020, without an audience because of the pandemic. The Weeknd, who headlined the Super Bowl halftime show in 2021 (above) took top honors for Video of the Year with "Blinding Lights." Lady Gaga received the most awards and was the inaugural recipient of the MTV Tricon award for achievements in three or more fields of entertainment. **COVID AFFECTED** the movie industry as theaters closed down and movie releases were moved to future dates or production suspended indefinitely. This prompted a move begun by Warner Bros. Studios to open movies in theaters and on select streaming services the same day. "Nomadland," nominated for four Golden Globes (winning Best Drama and Best Director), opened both in theaters and on Hulu on Feb. 19.

MORE WAYS TO WATCH

WITH MOVIE THEATERS closed because of the pandemic, streaming services became a new place to see first-run movies. Apple TV picked up Tom Hanks' film "Greyhound," and Warner Bros. announced its entire slate of movies for 2021 would be released on HBO Max at the same time they premiered in theaters. The lineup included "Wonder Woman 1984," "Dune" and "Matrix 4." Americans watched 17 percent more television overall in 2020 than in 2019. Disney+ dominated the top 10 list of most streamed movies with seven. "Frozen 2" and "Moana" took the top two spots.

TELEVISION TRENDS



DISNEY+ OFFERED subscribers a chance to watch a live production of "Hamilton," the musical written and composed by Lin-Manuel Miranda. Originally scheduled for theatrical release in October 2021, it was available to stream July 3, 2020. ***USA TODAY* DUBBED** 2020 the summer of silliness as networks and streaming services introduced game shows like "Don't," hosted by Adam Scott with narration by executive producer Ryan Reynolds.

M

MUSIC & TRENDS

COVID CONTINUES TO INFLUENCE

GRAB A GUITAR

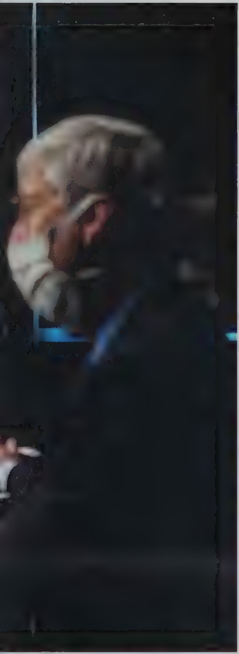
AS THE WORLD SPENT months on lockdown, people found comfort wherever they could, including in music. Guitar sales exploded in 2020. Fender, for example, saw its instructional app grow from 150,000 users to 930,000 into the summer, and the company said it was their biggest sales volume year in its 74-year history. **THE MUSIC WORLD** lost a legendary guitarist with the death of Eddie Van Halen on Oct. 6 at the age of 65. The founder of Van Halen had battled lung cancer for years. Eddie formed the band in 1972 with his brother on drums, Michael Anthony on bass and David Lee Roth on vocals. His son Wolfgang joined the band in 2006. Van Halen was inducted into the Rock and Roll Hall of Fame in 2007, and Eddie was considered one of the greatest guitarists of all time.

ZOOM BECAME A FAVORED form of communication for everything from business meetings and virtual learning to visits among friends and family during months of stay-at-home orders. Daily downloads in early 2020 increased 30 times over the previous year. According to Zoom, users spiked to 200 million in March 2020, up from 10 million four months earlier. **SHORTAGES ON ITEMS** like toilet paper, bleach, disinfectant wipes and hand sanitizer became an unwelcome trend early on and continued to some degree throughout the pandemic. Although people were urged not to hoard and stockpile, empty store shelves recurred. Stores resorted to limiting the number of paper products and cleaning supplies people could buy at one time. **AS RESTAURANTS CLOSED** for in-person dining and authorities issued stay-at-home orders, home delivery services soared. Grub Hub and Uber Eats delivered take out from local restaurants while Door Dash and Shipt delivered orders to people who shopped from a list submitted online. **SWEATS AND YOGA PANTS** became not only acceptable but fashionable during the pandemic, and even Jennifer Lopez, shown here in green sweats, followed the trend. When people worked from home, kids attended school from home and everything shut down, comfort became an option — and a priority. **THE COVID-19 PANDEMIC** determined many trends for the year. The CDC first advised the public to wear masks in early April 2020. Following the recommendation, all but 12 states later issued mask mandates. According to Dr. Anthony Fauci, chief medical advisor to President Biden, masks may be necessary through 2022.

Whitney Houston

Nine Inch Nails

The Doobie Brothers

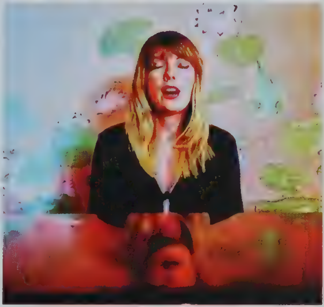


Depeche Mode

THE ROCK AND ROLL CLASS OF 2020

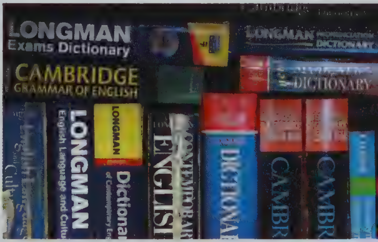
THE LIVE ROCK AND ROLL Hall of Fame Induction Ceremony was replaced with a special on HBO due to the pandemic. On Nov. 7, Whitney Houston, Nine Inch Nails, The Doobie Brothers, Depeche Mode (pictured from left to right), along with The Notorious B.I.G. and T-Rex were inducted in the virtual ceremony. Artists become eligible for induction 25 years after the release of their first record. To be considered, an artist must be nominated by a committee; 2020 had a record 16 nominations. Ballots were then sent to more than 1,000 "rock experts" who voted.

MUSICAL SCORES



THE 2020 COUNTRY MUSIC AWARDS were held in Nashville on Nov. 11. Eric Church, pictured above after he performed the National Anthem with Jazmine Sullivan at Super Bowl LV, took top honors as CMA Entertainer of the Year. The awards ceremony was one of the few that had a live audience, although it was limited to presenters and their guests

ARTIST OF THE YEAR, the top prize in the American Music Awards, went to Taylor Swift on Nov. 22. She also won Music Video of the Year and Favorite Female Pop Artist. Swift holds the record for most AMA career wins by a single artist with 32.



WORD OF THE YEAR

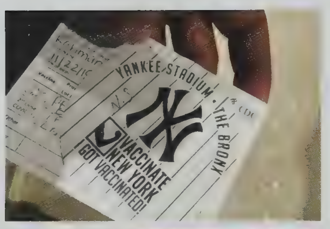
YOU GUESSED IT: PANDEMIC. Merriam Webster chose the word based on how often it was looked up on their online dictionary. According to Oxford Dictionaries, the use of the word surged 57,000 percent in 2020. Pandemic has roots in Greek: *pan* meaning "all" and *demos* meaning "people."

COVID CONTINUES

PANDEMIC ALTERS NORMAL LIFE

A GRIM MILESTONE

"TODAY WE MARK a truly heartbreaking milestone: 500,071 dead," President Biden said on the evening of Feb. 22, 2021. The candlelight ceremony included a moment of silence for the more than half a million killed by COVID, remarks by Biden and lowering the flag to half-staff until sunset on Feb. 26. Biden was joined by wife Jill, Vice President Kamala Harris and Second Gentleman Douglas Emhoff.



FIGHTING THE VIRUS

VACCINATIONS BEGAN in December 2020, but the rollout was plagued with high demand and limited supplies. President Biden promised 100 million vaccinations in his first 100 days, and the administration worked to make more vaccines available. In February, Yankee Stadium opened as a mass vaccination site for residents of the Bronx only. This area of New York City had the highest rates of positive tests and uninsured residents. The site had 15,000 slots available per week. **CAPTAIN SIR TOM MOORE** became a well-known name when, just before his 100th birthday, he walked 100 laps, with the aid of a walker, around his garden in Britain. He hoped to raise $1,250 for health care workers. To his surprise, the WWII veteran raised more than $40 million. Queen Elizabeth knighted Moore in her first official engagement in person since lockdown. Moore died Feb. 2 after contracting COVID.

COVID PUT A STOP to the traditional Mardi Gras parades. No floats? No problem! Thousands of homeowners in New Orleans decorated their houses instead. Plans evolved out of a Facebook group, Krewe of House Floats, which grew to more than 9,000 members before Carnival started. **IN-PERSON LEARNING,** virtual classes or a hybrid program combining the two were among the options for students everywhere. Plans varied from city to city, and constantly changed as schools adapted to local pandemic conditions. Many parents pushed to open schools fully while teachers worried that in-person instruction would put them at risk. Studies emerging in early 2021 indicated students did not fare well during the year, and discussions about making up for lost instruction began quickly.

2020-2021

250 East St.
Mansfield , Mass.
02048

glow with
the flow

Mary Watkins

Letter from the Principal

To the Graduating Class of 2021:

Wow- what a year!

You've persevered through remote learning, hybrid learning, and full in-person learning. You've exhibited patience with the technology and a willingness to adapt. You've demonstrated flexibility and a positive attitude.

Class of 2021, you have everything it takes to succeed and then some!

I am incredibly proud of each and every one of you. Wherever life takes you, near or far, remember that you will always be a Mansfield Hornet.

With kindest regards,

Ms. Watkins

Dedication

Mrs. Whitaker & Ms. DelMonaco

The Class of 2021 is so grateful for our amazing class advisors, Mrs. Whitaker and Ms. DelMonaco. Your hard work and effort to ensure our class had as many opportunities as possible over the last four years has not gone unnoticed. The class would like to express our gratitude for you and your commitment to us throughout high school, especially given the unexpected course of our final two years. Whether planning fundraisers like car washes and bake sales or organizing senior events, you truly were the unsung heroes of the class of 2021.
Thank you!

Laura Whitaker

Alyssa DelMonaco

In Loving Memory of

Eddy Robitaille

You will always be a part of the
Class of 2021
May you rest in peace.

Creating a yearbook, capturing the essence of a school, of a year, of moment in time is always hard but this year proved to be especially challenging. This group of dedicated yearbook staffers stepped up for the challenge and knocked it out of the park!

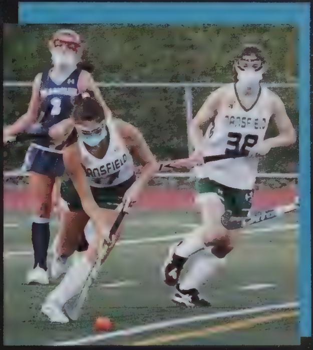
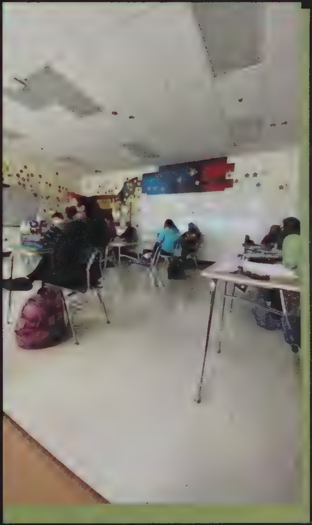
Glow is defined as a steady radiance of light or heat, and during this fall we all needed a light to keep going. One thing is for sure, fall was a season like no other...

fall

From the very beginning of the school year there were many unknowns. Our lives as we've known them were flipped upside down. We had to learn to adapt to new ideas and routines but that doesn't necessarily have to define our story. In the midst of all this, the students and faculty of Mansfield High School were able to come together as a community and shine this fall. In order to make it though we had to **glow with the flow.** This is the story of how a very different year unfolded.





a day in the life

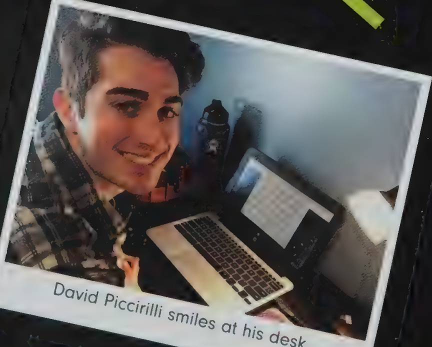
REMOTE

Emily Triantafilopoulos hangs out with her friends Guy Fieri and Danny Devito during class.

Ashlyn Conley opens her computer up to start off her day.

Nasyve Beech gives a thumbs up as he joins a google meet.

Ethan Bruce cooks up a meal during lunch.



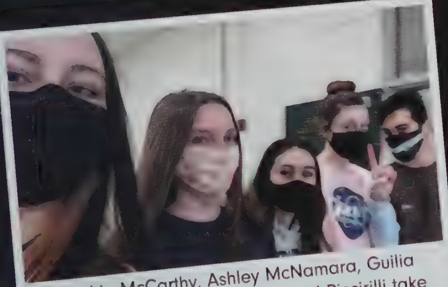
David Piccirilli smiles at his desk.

Lauren Smith poses for a picture in between classes.

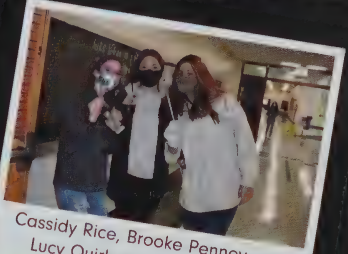
Danielle Donovan hangs out with her cat while remote.

a day in the life

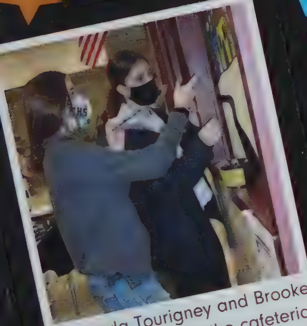
IN-PERSON



Sophie McCarthy, Ashley McNamara, Guilia Piccirlli, Grace Rozelle and David Piccirilli take indoor laps during walking class.



Cassidy Rice, Brooke Penney and Lucy Quirk pose for a picture after a lab.

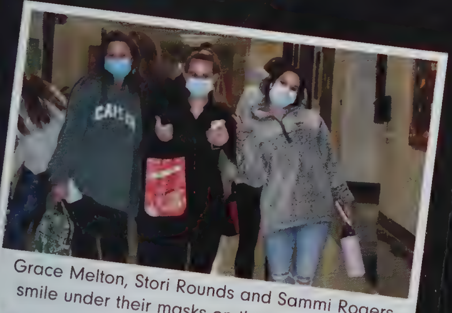


Mikayla Tourigney and Brooke Penney decorate the cafeteria windows during lunch.

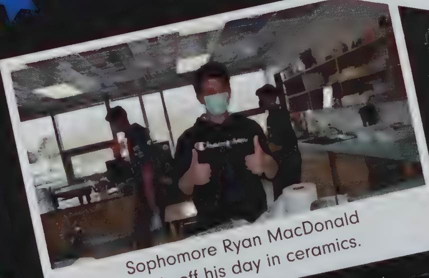
Caitlyn Wagner practices playing the flute in band.

Pat Gormley and John Moore enjoy lunch outside.

Lilly Verheggen smiles in the cafeteria.



Grace Melton, Stori Rounds and Sammi Rogers smile under their masks on their way to lunch.



Sophomore Ryan MacDonald ends off his day in ceramics.

Xbox Series X is the newest and most popular system. Mom Jeans are making their way back! Chipotle is still the #1 burrito place around here!

dracula

The Drama Department performed their fall production, “Dracula: A Comedy of Terrors,“ through a podcast this year.

“As a result of COVID-19, we had to adapt our plans for our fall production and make it into a podcast instead of a live performance,” Mrs. Newton said. “I am so proud of the students for how they easily adapted to this change although this may not have been the ideal way to perform the show. ” The cast included 15 cast members, 5 commercial creators and actresses, and 11 crew members. ranging between freshman and seniors.

Dracula: A Comedy of Terrors: December 4 & 5, 2020

A. Angel Alvarado as Captain B. Stella Scire as Kitty C. Kyla Putternman as the narrator D. Gabriella Zive as Mina Westfeldt E. Brendan Robinson grins while Kaitlyn Malsky looks on F. remembering a member of the class of '21...

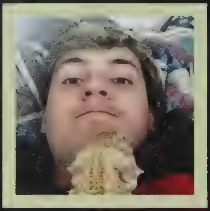
Edwin "Eddy" Robitaille

November 5, 2002 - February 20, 2019



I'd like the memory of me
to be a happy one.
I'd like to leave an afterglow of
smiles when my day is done.
I'd like to leave an echo whispering
softly down the ways,
Of happy times and laughing times
and bright and sunny days.
I'd like the tears of those who
grieve, to dry before the sun;
Of happy memories that I leave
behind when day is done.
-Helen Lowrie Marshall

Everyone who got to know Eddy knew the heart of gold he had.
He cherished his family and friends and would give you the shirt off his back.
A phrase he often quoted was "Life's too short, make the most of it."
That quote is a good reminder to us all.

We miss you, Eddy.

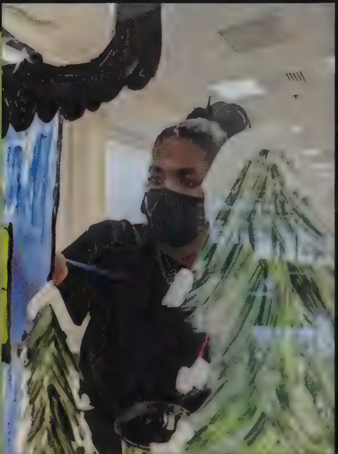
Flow

is defined as the action or fact of moving along in a steady, continuous stream.



winter

As fall colors faded into cold, snowy days the MHS community fell into the daily routine of this new normal. Remote days, in person days, S3H periods, class in the caf...we continued to **glow with the flow** and dream of warmer days.

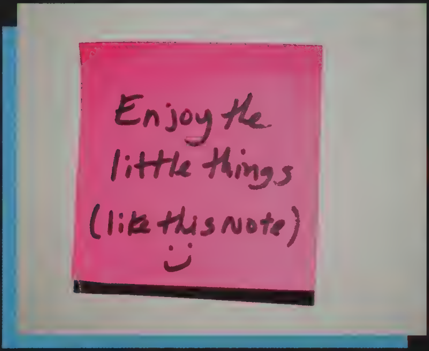
WE'RE ALL IN THIS
TOGETHER!

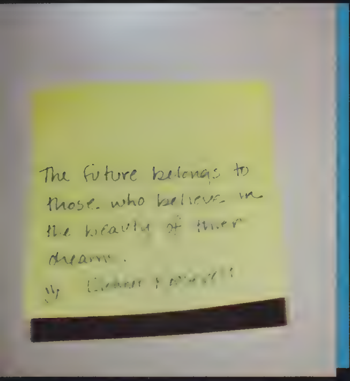


Enjoy the
little things
(like this note)
:)

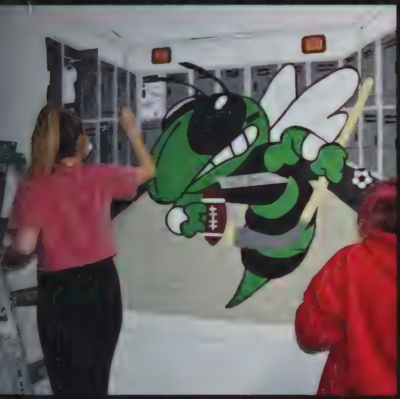
By Spring we had gotten used to the new normal - masks, hand sanitizer, new schedules, cohorts but we were ready for the sun and warmth. In April we started back to school full time and had to adjust again but everyone was happy to back together.

EVERYTHING'S
gonna
BE ALRIGHT!

spring



The future belongs to
those who believe in
the beauty of their
dreams.
[illegible]



BEST STEPS
Believe in
yourself!

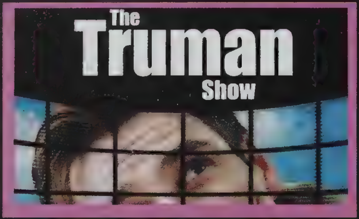
clubs

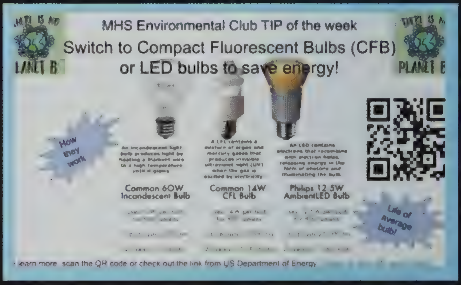
Anime Club has met regularly and virtually all year. The students chat and the presidents, Albina Khodos and Haiden Peavey, have everyone vote on what they want to watch that week, and they use a couple of streaming services to present what they decide on.



The MHS film club is an inclusive club that includes students from multiple grade levels. They enjoy watching films from all genres. Some of the films they watch are for "fun" while others are selected based on excellent critical reviews. They enjoy discussing the themes, symbolism, and cinematography of the films they watch. The top three movies they have watched were the Truman Show (1998), The Game Show (1997), and The Shallows (2016).

Computer science club has been working on 3D printing and CAD. President, Dierdre Burke found online collaborative websites for students to work on coding together.

Business Club has been meeting virtually and have participated in virtual events and competed in virtual competitions.



MHS Environmental Club TIP of the week

Switch to Compact Fluorescent Bulbs (CFB) or LED bulbs to save energy!

How they work

An incandescent light bulb produces light by heating a filament wire to a high temperature until it glows

A CFL contains a mixture of argon and mercury gases that produces invisible ultraviolet light (UV) when the gas is excited by electricity

An LED contains electrons that recombine with electron holes, releasing energy in the form of photons and illuminating the bulb

Common 60W Incandescent Bulb

Common 14W CFL Bulb

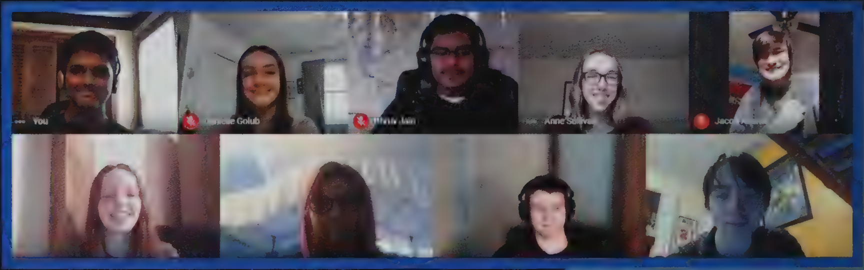
Philips 12.5W AmbientLED Bulb

Life of average bulb!

Learn more: scan the QR code or check out the link from US Department of Energy

Environmental Club has been meeting virtually on Wednesdays during SH3. They created a mission statement to keep the Earth clean, starting with our community and to raise awareness of environmental issues. Some of the things they have done include starting a recycling initiative and releasing a tip of the week on Twitter, Instagram, and the newsletter.

Despite being all virtual the High School Quiz Show team managed to compete in several tournaments.

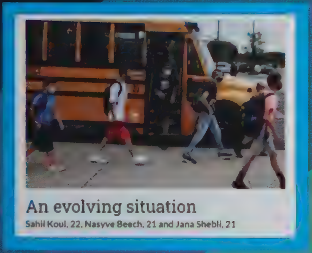


Photography Club met throughout the fall to work on different projects. They put together the 2021 Bentley Calendar. The calendar is a yearly fundraiser to raise money for NEADS, a world class organization that provides service dogs for adults, children, and veterans. They met outside of school at different locations to photograph Bentley, who was trained through NEADS.

National History Day is a competition where students create history projects based on this year's theme of "Communication in History." They have a chance to compete at the school, regional, state, and national level. This year Isabelle Conway ('21) advanced to compete at the national level for her performance on Blanche Ames. All competitions held this year have been virtual.

Mock Trial has been participating in virtual competitions. The theme for this year is focused around cyberbullying.

French Honor Society and Spanish Honor Society held a virtual induction ceremony to induct new members for their academic success in the World Language Department.



An evolving situation

Sahil Koul, 22, Nasyve Beech, 21 and Jana Shebli, 21

The Voice is a student run online newspaper where students write news articles and opinion pieces on current events, sports, and pop culture.

This year the National Honor Society has held multiple card and donation drives, including a collection for Toys For Tots where groups of students made collection boxes and went to different locations to collect toy donations.

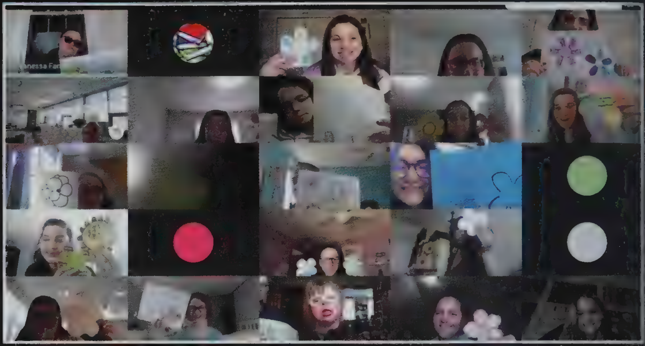
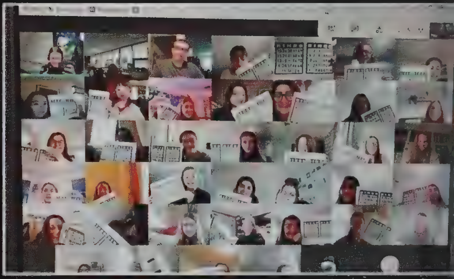
BEST BUDDIES®
©K. Haring 89





The past year has been difficult, especially with remote and hybrid learning. However, Mansfield's Best Buddies Chapter has been able to successfully adapt to the unprecedented circumstances with loads of creative events! All of our events have been virtual to ensure Covid-19 protocols are followed, and so that most people can attend.

The first event of the year was a virtual scavenger hunt in which club members searched their houses for the items on the list. This event was followed by our annual match party, which featured fun icebreakers and would-you-rather-questions! In November, our favorite event, Friendsgiving, was tough to imitate; nonetheless, our amazing executive board was able to create fun crafts for our Thanksgiving Google Meet!

Our favorite event this year was the movie night in December – more than forty members showed up for the Polar Express showing! Every member picked up little "winter kits" that contained hot chocolate, candy canes, and other little gifts. The winter kits were a huge hit, so we replicated similar ones for our Valentine's event.

Overall, the year has been challenging, but our wonderful chapter has been able to attend virtual events where everyone always has fun!

Top: Members show off their flower art during a virtual meeting
Middle: A virtual Bingo meeting!
Bottom: Lulu Cavicchi, Jessica Hanley and Karine Ayoub hang up flowers made by members of the club

E. Cole Bromley

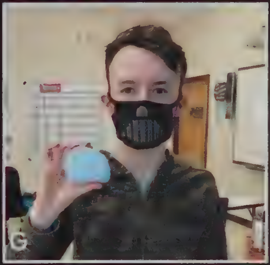
H. Logan Heming building
with legos



A. Katherine Guravage shows off her K from the Project Teammate Art class Bubble Letter project.
B. Jacob Gage is all smiles with his paper bag house and watercolor
C. Chelsea Roberts is happy with her house
D. Kevin Prior presents his Kindess Rock

project teammate

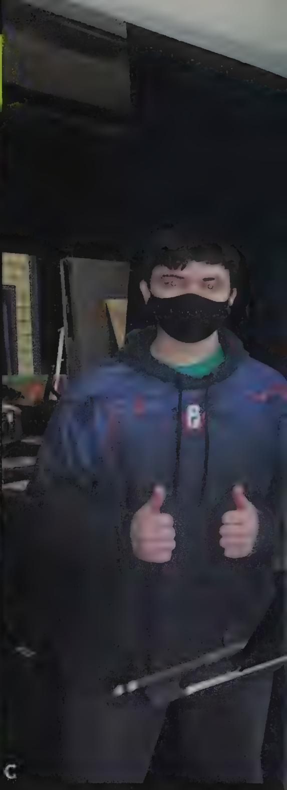
A. Amelie Roulleau plays vibraphone.
B. Jeevian Baylis, Lukas Jakubenas and Seth Pierce stand front and center.
C. Josh Loyola plays guitar while looking over at his peers.
D. Kai Shirmacher focuses as he plays marimba.
E. Pete Rozelle and Clark Mackin play in sync with one another.
F. Eric Gu, Kai Shirmacher and Ian Steele patiently wait to play.

This year's winter percussion show was entitled "I Lost A Friend." The performance used the song "I Lost A Friend" by the brother of Billie Eilish, Finneas. Although the group didn't do any in-person competitions this year, they did virtual competitions and remained as passionate and powerful as they are every year.

G. The girls patiently wait to do their final performance in front of their families.
H. The team throws their flags in the air together.
I. Lili Trejo does a needle mid performance.
J.The girls begin their routine lined up with on another.
K. The guard members toss their rifles in the air.

percussion & color guard

This year's color guard show was "Living With You" and was inspired by the broadway show "Ghost." The girls performed virtually this year and ended up getting the title of State Champions because of their powerful performance.



A. Band members stand 6 feet apart as they wait for instructions

B. The choir shows off their Valentine boxes

C. Adam Melham, Ryan Smith and Julianna Lucht give the thumbs up during practice

D. Kaitlyn Wagner and Amelie Roulleau practices the flute

E. Parvathy Suraj practices violin

F. Claudia Petrelli takes a break from viola practice

before COVID-19

spring 2020

before

coronavirus

Before COVID-19 came along, nobody hesitated at the thought of going to parties or social gatherings.

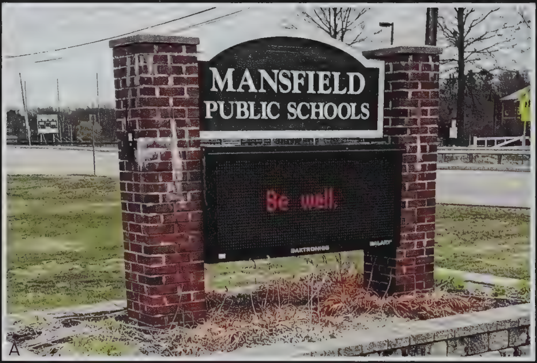
Now, we question almost every choice we make, asking ourselves if our choices will have an impact on other people, specifically, the health of other people.

Although the 2021-2020 school year has be a bit challenging, it's good to look back at old photos and remember that

good times are to come.

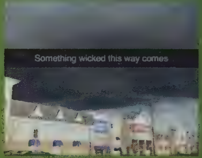
"the new normal"

A. Mansfield tells its students to "be well," during a time of uncertainty.
B. Ethan Bruce and Dan Sheahan follow CDC guidelines and socially distance.
C. Ava Adams and Caitlyn Zajac finally reunite outdoors after weeks of not seeing each other.
D. Alina Nowakowski, Noah Price, Olivia McGrath and Greg Coyle social distance outside.
E. Jessie England, Michaela Kablik, Kyla Putterman and Annie Sullivan hang out outside.
F. Ashley Santos socially distances in the MHS senior lot.
G. Owen Lasbury-Casey dresses up for prom despite it being canceled.
H. Kacey Veiking, Ashley Santos, Sarah Dooling, Alina Nowakowski, Nicole Santos
I. Caitlin Haley, April McHardy, Jessie England and Ashlyn Conley take socially distant prom photos.



what's NORMAL?

On March 13th, 2020, Mansfield High School students were told that the school would be shutting down for 2 weeks.



Something wicked this way comes

Here is a picture taken by the senior class president Ethan Bruce on March 13th, 2020 where he captioned a picture on snapchat "something wicked this way comes." Little did Ethan and the rest of us know that students would not return to MHS in the 2019-2020 school year.

After the initial shut down of the school, along with the rest of the country, everything changed. Masks, social distancing and hanging out outside are all the new normal. These photos give us all just a taste of these few months, making us realize that things may never be "normal" again.
